

Amendments to the Claims

Please amend Claims 1. Cancel Claims 2, 5 and 6. The changes are shown with ~~strikethrough~~ for deleted matter and underlining for added matter. A complete listing of the claims is set out below with proper claim identifiers.

1. (Currently Amended) A polymer composition comprising:

(A) a polymer containing chlorine atoms, the polymer being obtainable by polymerizing cationically polymerizable monomers with an initiator in the presence of a Lewis acid catalyst, wherein the polymer is an isobutylene block copolymer including a block which does not contain isobutylene as a principal component and a block which contains isobutylene as a principal component; and

(B) a double salt containing magnesium and aluminum as metal atoms wherein the double salt has an average particle size of 10 μm or less.

2. (Cancelled).

3. (Previously Presented) The polymer composition according to Claim 1, wherein the double salt containing magnesium and aluminum as metal atoms is a double salt of a hydroxide and a carbonate.

4. (Original) The polymer composition according to Claim 3, wherein the double salt containing magnesium and aluminum as metal atoms is a hydrotalcite.

5. (Cancelled).

6. (Cancelled).
